PDP–11 MACRO–11 Language Reference Manual

Order Number AA–NJ90B–TK

August 1991

This manual describes how to use the MACRO–11 relocatable assembler to develop PDP–11 assembly language programs. Although no prior knowledge of MACRO–11 is required, you should be familiar with the PDP–11 processor addressing modes and instruction set. This manual presents detailed descriptions of MACRO–11's features, including source and command string control of assembly and listing functions, directives for conditional assembly and program sectioning, and user-defined and system macro libraries. The chapters on operating procedures were previously found in two separate manuals (the *Macro–11 Language Reference Manual* and the *IAS/RSX Macro–11 Reference Manual*. This manual should be used with a system-specific user's guide as well as a Linker or a Task Builder manual.

Revision/Update Information:	This manual supersedes the *PDP–11 MACRO–11 Language Reference Manual*, AA–NJ90A–TK, and previous editions.
